

# SCIENCE

---

## Learning & Group work

Prof Peter O'Donoghue

1

# Graduate Attributes

---

(17 attributes in 5 categories)

In-depth knowledge	}	content (specific)
Effective communication		
Independence and creativity		
Critical judgement	}	process (generic)
Ethical and social understanding		

4

# Tertiary Education

**Functions of universities:**

- Teaching (pass on knowledge)
- Research (add to knowledge)
- Service (utilization of knowledge)

UQ Teaching and Learning Enhancement Plan  
 "... to pursue excellence in all aspects  
 of **teaching and learning**"

2

# T&L Principles

TRANSMISSIVISM (transmitting content)	← →	CONSTRUCTIVISM (constructing meaning)
--	-----	--

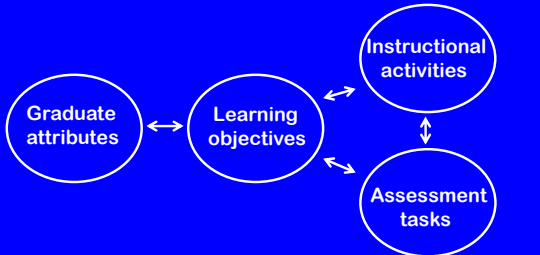

didactic	dialectic/socratic	maieutic
lectures seminars	tutorials practicals	problem/case-based

## T&L Methods

5

# Electronic Course Profile

ECPs: [www.courses.uq.edu.au](http://www.courses.uq.edu.au)

constructive alignment (CIA) model

3

# Educational Domains

---

■ Psychomotor (doing)	→	■ Skills
■ Affective (feeling)	→	■ Attitudes
■ Cognitive (knowing)	→	■ Concepts
	→	■ Knowledge

6

## Teaching

- Teachers fill numerous roles:
  - content expert (source of information)
  - process maker (provide structure)
  - formal authority (set objectives, standards)
  - facilitator (help make things happen)
  - role model (show desirable behaviours)
  - personal attributes (enthusiasm, tolerance, integrity, understanding...)

7

## INFORMATION

- INTERNAL (inside student)
  - ⇒ must be activated
- EXTERNAL (outside student)
  - ⇒ must be acquired

10

## What is Learning?

increase in knowledge

- retention (acquiring/memorising facts)
- recognition (principles/ideas/concepts)
- cognition (making sense, understanding)
- action (developing skills/competencies)

<p><u>surface learning</u></p> <ul style="list-style-type: none"> <li>• atomistic</li> <li>• isolated</li> <li>• limited understanding</li> <li>• quickly forgotten</li> </ul>	<p><u>deep learning</u></p> <ul style="list-style-type: none"> <li>• holistic</li> <li>• relational</li> <li>• good understanding</li> <li>• long-term retention</li> </ul>
--	---

8

## INTERNAL

activate prior knowledge

- deliberation
- reflection
- review

} ⇒ metacognition  
'thinking about thinking'

⇒ institute checks and balances

- need to audit knowledge (check what they DO know)
- need to identify gaps (indicate what they DO NOT know)

11

## How to engender deep approach?

- use right tools
- provide context
- activity based
- interactive
- motivate, excite
- solid foundations
- transparent process

All about INFORMATION

- acquisition
- understanding

9

## EXTERNAL

gather information

- print (books/journals)
- multimedia (IT/web)
- people (teachers/peers)

} ⇒ sort and filter

⇒ institute checks and balances

- decide what, where, how, when, why?
- develop product/report

12

## Group work

“Community of scholars”

13

## Disadvantages of group work

- meet bad people, learn #@% things!
- inequities
- logistics
- management
- scope
- sequence
- schedule
- conflict
- not fun!

16

## EDUCATIONAL CONTINUUM

SCHOOLS	UNIVERSITIES	EMPLOYMENT
<p>student-centred small groups interactive personalized set curriculum</p>	<p>teacher-centred large groups limited interaction impersonal elastic curriculum</p>	<p>staff-centred small groups interactive personalized vocational focus</p>

14

## Group work

THEORY	PRACTICE
<ul style="list-style-type: none"> <li>• not <i>ad hoc</i></li> <li>• well studied</li> <li>• key biological trait</li> <li>• ethology/psychology</li> </ul>	<ul style="list-style-type: none"> <li>• <i>modus operandi</i></li> <li>• benefits</li> <li>• problems</li> <li>• survival tips</li> </ul>

17

## Advantages of group work

- meet good people, learn ♥♥♥ things!
- vocational practice
- interpersonal skills
- communication
- knowledge base
- personalized
- social competencies
- learning psychology
- fun!

15

## Group dynamics

**inter-personal relations**

[the ways individuals and groups act and react to changing circumstances]

studied in psychology, sociology and communication;  
relevant to all sciences (social/natural, empirical/formal)

group = 2 or more individuals  
who interact and influence each other

18

## Groups

---

**Educational development** (students):  
Cohorts, streams, classes, study groups, projects, assessments, examinations

**Professional life** (common in workplace):  
Teams, partners, groups, panels, committees

**Social life** (relationships):  
Families, partners, clubs, societies

19

## Social development

---

- attachment (bonding)
- socialization (behavioural norms)
- relationships (parent, peer, mentor)
- **social-cognition** (perspective/context) (moral development)

22

## Human development

---

14 key psychological features

<ul style="list-style-type: none"> <li>sensation</li> <li>perception</li> <li>consciousness</li> <li><b>learning</b></li> <li>memory</li> <li>thought</li> <li>language</li> </ul>	<ul style="list-style-type: none"> <li>intelligence</li> <li>motivation</li> <li>emotion</li> <li>personality</li> <li>physical dev.</li> <li>cognitive dev.</li> <li><b>social dev.</b></li> </ul>
--	---

20

## 8 psycho-social stages

---

<ul style="list-style-type: none"> <li>trust</li> <li>autonomy</li> <li>initiative</li> <li>industry</li> <li>identity</li> <li>intimacy</li> <li>generativity</li> <li>integrity</li> </ul>	<div style="font-size: 3em;">}</div> <p>all involve <b>social</b> interactions</p>
--	--

23

## Learning

---

behaviour/response based on experience

- classical conditioning (associative learning)
- operant conditioning (trial-n-error)
- **cognitive-social** theory of learning

↓

latent learning  
(cognitive maps)

↘

learning through  
social interaction

21

## Group performance

---

<ul style="list-style-type: none"> <li><b>Forming</b></li> <li><b>Storming</b></li> <li><b>Norming</b></li> <li><b>Performing</b></li> <li><b>[Mourning]</b></li> </ul>	<ul style="list-style-type: none"> <li>(honeymoon)</li> <li>(conflict)</li> <li>(negotiating)</li> <li>(achieving)</li> <li>(grieving)</li> </ul>	<ul style="list-style-type: none"> <li>orientation</li> <li>organization</li> <li>stabilization</li> <li>problem-solving</li> <li>dissolution]</li> </ul>
---	---	---

24

## Group cohesion

- **value diversity**
  - demographic (age, gender, ethnicity)
  - experiential (familial, social)
  - academic (background, training)
- **congregate**
  - meet frequently/regularly (no excuses)
  - professionally, socially (mixers)
- **establish collective identity**
  - proclaim group number/name (inclusive/exclusive)
  - personal/professional/social development/growth
- **respect each other**
  - politeness, equity, political/social correctness
  - integrity, honesty, fair dealing (in and out of group)

25

## Group conflict

- **inter-personnel**
  - inequities (compliance/procrastination)
  - personalities (ego clashes, bullying/wallflower)
- **criticism**
  - inevitable (constructive/destructive)
  - compassion (social, intellectual)
- **remediation**
  - reward (good behaviour)
  - punishment (bad behaviour)
- **plagiarism**
  - collusion, copying, claiming, contributing
  - group-work / individual-assessment conundrum

28

## Group goals

- **purpose**
  - specific/generic, vested interest
  - contextual relevance (workplace model)
- **objectives**
  - address course requirements (criteria/standards)
  - negotiate and document learning objectives
- **scope, sequence, schedule**
  - activate knowledge, seek knowledge
  - time management (commitments, deadlines)
- **outcomes**
  - product (marks, grades)
  - cognition/meta-cognition (understanding)

26

## Group help!

**FOR PROCESS** (not content)

- each other
- other groups
- course coordinators
- Faculty advisers
- Uni student counsellors
- ombudsman
- health professionals

29

## Group activities

- **roles** (division of labour)
  - leadership, cooperation
  - chair/scribe, elephants/mice
- **tasks**
  - participation, input/output
  - sources/resources
- **performance**
  - quantity (superficial/encyclopaedic, collation)
  - quality (review/judgement, feedback/improvement)
- **productivity**
  - monitoring progress
  - monitoring final product

27
